Always the better choice ... Naturally.

simple. healthy. natural.

In the beginning ...

I didn't know I'd be starting a company. All I wanted was to make dinner. My kids had dietary restrictions, so opening a box of store bought macaroni and cheese was not an option. I needed to create meals that were nutritious, delicious, unprocessed, and easy to prepare. Mostly, I wanted to make dinners my family would love.

Magnificent, healthful meals in minutes. Is that too much to ask? Back then, it was. So my parents (Frank and Judy) pitched in and we all started experimenting with herbs and spices. We put some interesting combinations together for pizza, pasta, roast chicken,

All I wanted was to make dinner.

barbecue ... storing them in recipe-size bags made prep time incredibly fast. My neighbors wanted some. My friends wanted some. We started bringing our culinary blends to local fairs. And then somebody said, how about selling them at home parties?

That's exactly what we did. And if you picked this catalog up at a party, you know why.

Always the better choice ... Naturally.

Wildtree was founded on the premise that food should be natural, nutritious, delicious, and easy to prepare – all at the same time.

So instead of using preservatives, additives, MSG or dyes, Wildtree products are made with the finest natural ingredients available. Instead of “good for you” foods with all the flavor of sawdust, Wildtree products are taste-tested winners. Instead of lengthy, complicated, time consuming recipes, Wildtree products enable you to create spectacular, great tasting dishes with just three or four ingredients.

We maintain a peanut-free facility and thoroughly test our products for safety, nutrition, taste and ease. We look for a “thumbs-up” from our Product Testing Committee and are committed to product excellence. If it's not right, we do it again.

In the spirit of fair play, we thought we'd explain exactly what those little peppers by some of our products mean. They're a simple way to indicate the level of spiciness you can expect. Whether you just want a little kick, or if you need to speed-dial the fire department, you are sure to find exactly what you are looking for.

grapeseed oil

Grapeseed oil is great for dressings and dipping, but it is absolutely unbeatable for sautéing or frying because it can be heated to a higher temperature than other oils without burning. The higher the heat, the faster the cooking time — so meats stay juicier and vegetables retain more nutritional value.

And the oil itself has some terrific health benefits. Grapeseed Oil is low in saturated fat, even lower than olive oil. It's high in antioxidants, like Vitamin E. It has no cholesterol. There are even studies showing that it helps raise HDL (good cholesterol) and lower LDL (bad cholesterol) and may have other health benefits, like lowering blood pressure.

You may already know that olive oil is more heart-healthy than other oils. Grapeseed Oil is even better.

Because of its myriad of uses, we've infused our oils with some very interesting combinations of flavors. Discovering your favorites should be a wonderful experience.

As I complete a second year with Wildtree, I continue to be amazed by how richly blessed we are through this business. While a six-figure income is great, the bigger luxury is that I get to be the wife and mother I want to be.

There is no other business where I can put the needs of my family first, and still watch my income grow. My children are now 4, 6, and 8 years old, and each year seems to go by faster than the one before. I have the great feeling of knowing that I get to witness every milestone, be involved in their school, and be there when they need me.

I have the best of both worlds: pride in a business that I have built from the ground up, and the time to enjoy all its benefits. Join our Wildtree team so you, too, can have it all!

I love Wildtree! Having fun is very important to me, and I have A LOT of fun working my Wildtree business. It gives me the chance to stay at home with my 3 boys (ages 8, 5 and 3), make my own schedule and still go out and have a great time talking about how Wildtree works for my busy family! I cook with these products every day, which has saved time and money, but even more important, I've seen huge differences in my kids' behaviors when we removed dyes, additives and preservatives from our food. They have more patience, listen better and are able to focus longer on things like reading and math.

Not only do I hold Home Tasting Parties, but I also raise money for others through fundraisers and raffle baskets, which helps me give back to my community. I am blessed to be able to provide this opportunity to others and help make a difference in their lives.

There is no greater reward than to help someone else gain something they need: a night out, to pay a car payment, a mortgage, or to help fund college for their kids.

I have not met anyone yet who doesn't like to save time and money. It is amazing what Wildtree has done for me and my family! What can Wildtree do for you?

I was so excited to hear that I could have my own Wildtree business: it lined up with my core values, offered delicious ways to feed a family in a hurry, and provided a means by which I could create my ideal life!

While Wildtree has helped me in my role as Mother to nourish my children, body & soul, it has also helped me in my role as Woman, to nourish my own sense of self.

I feel honored to share this opportunity for personal growth with other women, to mentor and support them toward their highest potential, and to celebrate big and small achievements along the way.

It is amazing to see the self-confidence that grows every time one of us stretches our comfort zone just a bit more. I love the saying, *To have more than you've got, become more than you are.* Cheers to becoming more YOU everyday!
